

A GUIDE TO STAY CYBER SAFE

DO'S

Ensure that you only transact on websites that carry an **HTTPS TAG**

Ensure that you **Download Applications** on your mobile devices only from established platforms- iTunes, App store or Google Play store

Always keep **“POP UPS”** disabled. Pop-ups can contain malicious software which can trick a user into verifying something.

Ensure that your devices are protected with an anti- virus program to **PROTECT YOU**

Enable “Two Step Verification” for your **CLOUD SERVICES** /social media

DONT'S

Avoid accessing **PUBLIC WI-FI** to make any financial transactions

Never share your **PASSWORDS, OTP OR BANK PIN** with anyone, including a banking official

AVOID ANY SOCIAL MEDIA INVITATIONS (such as Facebook-friend or LinkedIn connection requests) from people you don't know.

Don't let web browsers remember your username and password as this could leave you open to **BEING HACKED**

Avoid using **PASSWORDS** that are relatable to you such as phone number, date of birth, pet's name etc
