### Protector Rider

#### B. Sum Insured Protector

The Sum Insured protector is designed to protect Your Sum Insured against rising inflation by linking the Basic Sum Insured under the Base Plan to the Consumer Price index (CPI).

The Basic Sum Insured will be increased on cumulative basis at each renewal on the basis of inflation rate in previous year. Inflation rate would be computed as the average CPI of the entire calendar year published by the Central Statistical Organisation (CSO).

The % increase will be applicable only on Basic Sum Insured under the Policy and not on any other benefit which leads to increase in Sum Insured.

#### What is Consumer Price Index (CPI)?

CPI is a measure of inflation, changes in the CPI are used to assess price changes associated with the cost of living.

It is a measure that examines the weighted average of prices of a basket of consumer goods and services, such as transportation, food and medical care. It is calculated by taking price changes for each item in the predetermined basket of goods and averaging them.

**The Central Statistics Office (CSO)** is a government agency in India under the Ministry of Statistics and Programme Implementation responsible for co-ordination of statistical activities in India, and evolving and maintaining statistical standards.
