## MUTUAL FUND ASSET PROTECTION

**HDFC  
ERGO**

*Take it easy!*

It's all about managing risks

The Mutual Fund industry has evolved in India over the years with ever increasing presence of global fund houses, increased interest from global and domestic institutional investors and substantial retail investors from India. Whilst it has grown in size and investor base it is still vulnerable to volatility of global stock markets, the constant battle to deliver investor value and growing investor's and regulator's activism.

Sensing this stock market regulator SEBI has been proactive in advising and mandating risk management requirements of all MF players: The Mutual Fund must buy insurance cover against third party losses arising from errors and omissions. Third party liabilities refer to liabilities arising out of financial loss to investors or any other third party, incurred due to errors and omissions of directors, officers, employees, trustees, R&T agents, etc.

### CLAIM EXAMPLES

---

#### EXAMPLE : 1

ABC Company made an error while amortizing its investment by entering the wrong cost of acquisition. The error was observed 30 days later and it resulted in an inflated NAV and hence the AMC, with the specific instructions from the Trustee and approval of an Independent Counsel, had to transfer around US\$ 500,000 for rectifying the error to avoid a possible dispute from the investors.

#### EXAMPLE : 2

ABC Scheme invested US\$ 3 Mn in XYZ with a call/put option and a fixed maturity date. Just before the maturity, in investment committee meeting it was decided to transfer this security from scheme ABC to another scheme DEF. Inadvertently, the same was not executed. At the same time, on maturity, call/put option was also not exercised. This was later discovered during periodic checks. ABC tried with XYZ to exercise the option during the next few days with no avail. In view of repercussions and possible disputes with Investors, the Trustees advised the fund to effect the transfer of this scrip as per market rates prevailing on the date of transfer to DEF scheme. This resulted in a loss of US\$ 100,000 to ABC scheme investors which was to be made good by ABC scheme Investment manager.
